Connecting the TV to a Games Console - Via SCART

SCART block

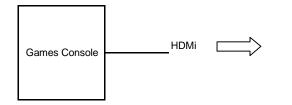

- 1) Connect the Yellow, Red and White Cables to the corresponding inputs on the SCART Block
- 2) Connect the SCART Block into the SCART socket on the TV
- 3) Select Input/Source as SCART on the TV

Connecting the TV to a Games Console - Via Component Y Pb Pr (Red, Green and Blue Connectors for Video Signal and Red & White connectors for Audio)

Connecting the TV to a Games Console - Via HDMi

Connect the HDMi cable from the console to the HDMi input on the TV. Ensure the settings on the console are set to send both Video & Audio via HDMi. Set the Video output settings on the console to either 720p or 1080i (on HD Ready models of LCD TV) or 1080p (on full HD models of LCD TV)
