IMPORTANT SAFETY INSTRUCTIONS

Please read these instructions. All the safety and operating instructions should be read before the appliance is operated.

Warnings

• To reduce the risk of fire, electric shock or damage to the television, do not expose it to dust, rain or moisture, or place any objects filled with liquids on or near the television.
• Do not place the television in a confined space, ensure that nothing can obstruct the ventilation openings at the rear of the television.
• Dispose of this television and any components including batteries in an environmentally friendly manner. If in doubt, please contact your local authority for details of recycling.

Safety

• For your safety, this appliance is fitted with a fused moulded 3 pin mains plug. Should the fuse need to be replaced, ensure that any replacement is of the same amperage and approved with the BSI mark.
• Never try and replace the mains plug unless you have adequate qualifications and are legally authorised to do so. In the event that a replacement Mains cable is required, contact the manufacturer for a suitable replacement.
• Never use the television if it is damaged in any way.
• Always place the television on a flat level surface avoiding anywhere which may be subject to strong vibration.
• Ensure the television is not placed on top of the power cable as the weight of the television may damage the cable and cause a safety hazard.
• Never place mobile phones, speakers or any other device which may cause magnetic or radio interference with the television. If interference is apparent, move the device causing the interference away from the television.
• To disconnect the apparatus from the mains, please use the all pole mains switch located on the side, underside or rear of the TV. The switch shall remain readily operable.
• Install the product keeping the specified distance from the wall.
• Batteries (battery pack or batteries installed) shall not be exposed to excessive heat such as sunshine, fire or the like.
• Install the product keeping the specified distance (more than 5 cm) from the wall.

Maintenance

• To clean this unit, wipe with a soft, dry cloth. If the surfaces are extremely dirty, use a soft cloth dipped in a soap and water solution or a weak detergent solution.
• Use eyeglass cleaner to remove stubborn dirt from the LCD/LED Screen.
• Never use alcohol, paint thinner or benzene to clean this unit.
• Before using a chemically treated cloth, read the instructions that came with the cloth carefully.

CAUTION: If water or other liquid enters the television through the display panel surface, a malfunction may occur.

Packaging

• The safest way to transport your item is in the original box/packaging - please save your packaging for this.
• You will need original box/packaging in the event of warranty/service repair or support. We are unable to carry out warranty/service if you are unable to package it correctly.
IMPORTANT SAFETY INSTRUCTIONS

Please read these instructions. All the safety and operating instructions should be read before the appliance is operated.

Important Information Regarding Use of Video Games, Computers, Captions or Other Fixed Image Displays

The extended use of fixed image program material can cause a permanent “shadow image” on the LCD panel. This background image is viewable on normal programs in the form of a stationary fixed image. This type of irreversible LCD/LED panel deterioration can be limited by observing the following steps:

1. Reduce the brightness/contrast setting to a minimum viewing level.
2. Do not display the fixed image for extended periods of time.
3. Turn the power off when not in actual use.

Examples of images that you need to watch out for are as follows (this is not an exhaustive list):
• TV Channel Logos: e.g. Shopping channel logos and pricing displays—especially if they are bright and stationary. Moving or low-contrast graphics are less likely to cause ageing of the screen.
• Time Displays
• Teletext: Do not view a stationary page for long period of time
• TV/DVD Menus: e.g. Listings of DVD disk content
• Pause Mode: Do not leave the TV in pause mode for long periods of time, e.g. When watching DVDs or videos.

Important - Once ‘shadow image/screen burn’ occurs, it will never disappear and is not repairable under warranty.

How do I dispose of this product?

UK: Waste electrical products should not be disposed of with household waste. Separate disposal facilities exist. For your nearest facilities, please see www.recycle-more.co.uk or in store for details.

ROI: Waste electrical products should not be disposed of with household waste. Separate disposal facilities exist. Check with your Local Authority or retailer for recycling advice.

Batteries
• Observe the correct polarity when inserting batteries.
• Do not use different types of batteries together or mix old and new batteries.
• Dispose of batteries in an environmentally friendly way.
• Certain regions may regulate the disposal of batteries. Please consult your local authority.

CAUTION: This caution label is located on the rear panel of the unit

THIS UNIT IS A CLASS 1 LASER PRODUCT. HOWEVER THIS UNIT USES A VISIBLE LASER BEAM WHICH COULD CAUSE HAZARDOUS RADIATION EXPOSURE IF DIRECTED. BE SURE TO OPERATE THE PLAYER CORRECTLY AS INSTRUCTED. WHEN THIS UNIT IS PLUGGED INTO THE WALL OUTLET, DO NOT PLACE YOUR EYES CLOSE TO THE OPENINGS TO LOOK INTO THE INSIDE OF THIS UNIT.

USE OF CONTROLS OR ADJUSTMENTS OR PERFORMANCE OF PROCEDURES OTHER THAN THOSE SPECIFIED HEREIN MAY RESULT IN HAZARDOUS RADIATION EXPOSURE.

DO NOT OPEN COVERS AND DO NOT REPAIR YOURSELF. REFER SERVICING TO QUALIFIED PERSONNEL.

WHAT IS INCLUDED IN THE BOX

1 x User Guide

1 x Quick Start Guide

1 x RF Cable

1 x Remote Control

2 x AAA Batteries

1 x TV

Please save your packaging as you will need this in the event of warranty/service repair or support. We are unable to carry out warranty/service if you are unable to package it correctly. The safest way to package your item in the event of warranty/service repair is in its original box/packaging.
ATTACHING/DETACHING THE STAND

Attaching the Stand

1) Insert the TV into the stand at 45 degrees

2) Twist the TV into the CLOSE position until it clicks into place

Detaching the Stand

1) To remove the base, press close and rotate 45 degrees.
2) Remove the 3 screws highlighted

3) Remove the screw/s in the neck of the stand (where fitted)

IMPORTANT - Before drilling any holes in the wall ensure you are not drilling where there could be any electric wires, water or gas pipes.

Wall mounting the TV

1) Remove the four screws highlighted below.
2) The wall mount can now be easily attached to the mounting holes on the rear of the TV. These holes are indicated in the picture below.

For optimum viewing, if wall mounting the TV higher than eye level, the TV should be tilted downwards so that the TV’s screen is ‘face on’. See fig 1 and 2

Important – If wall mounting this TV, only use the screws already provided in the wall mounting holes. Using other screws which are longer could cause irreparable damage to internal parts.
GETTING STARTED - INITIAL SET UP

1) Using the RF cable supplied, connect the TV to the TV Aerial wall socket (Fig A)

2) Connect the power cable to the Electrical outlet (Fig B)

3) Switch on the television using the power on/off switch located on the side of the TV.

4) Insert the batteries supplied into the Remote control and press the Standby button to power on the TV

5) You will now be welcomed with the initial set-up screen. If it does not appear, on the remote control, please press [MENU] then 8-8-8-8 and the menu will appear. Press OK on the remote control and tuning will start.

6) After tuning the following screen will appear.

Tip: If the TV finds some, but not all, of the Digital channels, the TV is functioning correctly but the signal being received is not strong enough. (The signal strength needs to be above 85% - you can see the signal strength the TV is receiving when you change channels/programmes) you will need to increase the signal reception in order to receive all of the channels available. The most economical way to do this is by purchasing and connecting a ‘signal booster’ in between the TV and the TV aerial socket. If this does not solve the problem, you will need to upgrade the TV aerial to a digital hi-gain compatible aerial.
TV BUTTONS & SOURCE MENU

1. Displays the input source menu
2. Displays Menu/OSD
3. Volume down and menu left
4. Volume up and menu right
5. Programme/Channel down and menu down
6. Programme/Channel up and menu up
7. Play/Pause Disc
8. Eject Disc
9. Standby Power On/Off

Choosing Mode Input/Source
To switch between the different input/connections.

A) Using the buttons on the remote control:

1) Press [SOURCE/ AV] - The source menu will appear
2) Press [V] or [A] to select the input you require.
3) Press [OK]

B) Using the buttons on the Television:

1) Press [SOURCE]
2) Scroll up / down using CH+/ CH- buttons to the input/source you require
3) Press Vol+ to change input/source to the one selected.

Input Source
- FREEVIEW
- ANALOGUE
- SCART
- COMPONENT
- DVD
- VGA/PC
- HDMI
- VIDEO
- USB MEDIA

Helpline No UK. 0871 2000 463  ROI. 01443 3940
Web Support: www.skymediauk.co.uk
Remote Control

1. **STANDBY** - Switch on TV when in standby or vice versa
   **MUTE** - Mute the sound or vice versa
   **TV/RADIO** - Switch to Freeview and switch between TV and radio in Freeview mode
   **TV GUIDE** - Opens the 7 Day TV Guide (Freeview mode)
   **ATV** - Switch to analogue TV source
   **USB** - Switch to USB source
   **DVD** - Switch to DVD source
   **EJECT** - Eject disc in DVD mode

2. **S.MODE** - Scrolls through sound mode options
   **P.MODE** - Scrolls through picture mode options
   **- To restart the current chapter**
   **- To advance forward to the next chapter**
   **- To stop the playback**
   **- To play in fast rewind mode**
   **- To play in fast forward mode**
   **- To play/pause**

3. **SOURCE/AV** - To display the input/source menu
   **INFO** - Press once for now/next channel information
   Press twice for programme information about current programme
   **(A/↑/↓/OK)** - Allows you to navigate the on-screen menus and adjust the system settings to your preference
   **MENU** - To display OSD menu
   **EXIT** - To exit all menus
   **NUMBER BUTTONS** - 0 – 9 to select a TV channel directly.
   **- To return to the previous channel viewed**
   **FAV** - To display favourites menu

4. **VOL ↑/↓** - To increase / decrease the sound level
   **SUBTITLE** - To switch the dialogue at the bottom of the screen (on/off)
   **ASPECT** - To switch the screen between the different picture formats
   **AUDIO** - To change the audio language (if available)
   **SLEEP** - Press repeatedly to cycle through the sleep options
   **CH ↑/↓** - To increase or decrease the channel being watched
   **GOTO** - DVD mode - To go to a specific chapter
   **A-B Repeat** - DVD mode - Press once to set point, press a second time to return to point
   **ANGLE** - DVD mode - Select different angle of DVD (if available)
   **REPEAT** - DVD mode - To repeat playback
   **D.DIS** - DVD mode - To display the current disc information
   **ZOOM** - DVD mode - To zoom in
   **SIZE** - Teletext mode - To change the display size in Teletext mode
   **DISPLAY** - To switch off the screen when listening to radio
   **DVD SETUP/TEXT** - DVD mode - To display the DVD setup menu
   **Teletext mode** - To enter Teletext
   **D.MENU/INDEX** - DVD mode - To display the DVD disc menu
   **TEXT** - Teletext mode - To display the index page
   **TITLE/REVEAL** - DVD mode - To display the DVD title menu
   **Teletext mode** - To reveal or hide the hidden words.
   **HOLD** - Teletext mode - Hold current page which is displayed

   **Teletext function is only available in analogue**
Connections

Connecting a DVD Player/Recorder, Video Recorder or Cable/Satellite Box

TVs Input/Source should be set to SCART
Connections

CONNECTIONS

Connecting a Camcorder, Camera or Games Console
Source should be set to Video

Connecting a High Definition (HD) Device
Option 1 - via HDMI to HDMI cable
A HDMI cable can output both video and audio and enables you to enjoy digital-quality video and audio with minimal loss of quality.

TVs Input/Source should be set to HDMI.

Option 2 - via Component cable
If you are supplied with a cable from the device which has RED, GREEN, BLUE, RED & WHITE connectors you must connect via Component (for picture) and by phono cable (for sound).

TV Source should be set to Component.
**CHANNEL MENU**

To access this menu, press [MENU] button on the remote control. To enter a menu press [OK].

If you wish to make changes to any of the default settings, use the scroll buttons. To confirm any settings press [OK] button.

To exit this menu at anytime, press [EXIT] button.

- **Auto Tuning** - Allows you to retune the television for all digital channels, digital radio stations and analogue channels.
- **Freeview Manual Tuning** - Allows you to manually tune your digital signal
- **Analogue Manual Tuning** - Allows you to manually tune your analogue signal
- **Programme Edit** - Allows you to delete, skip and add favourite channels.

</tr>
</tbody>
</table>

**AD Volume** - Increase or decrease the overall volume
TV Menu Operation

TIME MENU

To access this menu, press [MENU] button on the remote control. To enter a menu press [OK]

If you wish to make changes to any of the default settings, use the scroll ▲▼►◄ buttons. To confirm any settings press [OK] button.

To exit this menu at anytime, press [EXIT] button.

Clock - Set the date and time
Off Time - Allows you to set a specific time for your TV to turn off
On Time - Allows you to set a specific time for your TV to turn on, the channel it will then display, the source it will be on and also the volume. This function can then be toggled to repeat every day or a certain day.
Time Zone - Change your current time zone
Sleep Timer - Lets you set the sleep timer so the television automatically switches off after a set amount of time. Off -> 10min -> 20min -> 30min -> 60min -> 90min -> 120min -> 180min -> 240min
Auto standby - Toggle the Function on and off
FEATURE MENU

To access this menu, press [MENU] button on the remote control. To enter a menu press [OK]

If you wish to make changes to any of the default settings, use the scroll ▲▼►◄ buttons. To confirm any settings press [OK] button.

To exit this menu at anytime, press [EXIT] button.

Schedule List - Lists your programme reminders
CI Information - Pay per view services require a "smartcard" to be inserted into the TV.
If you subscribe to a pay per view service the provider will issue you with a ‘CAM’ and a “smartcard”. The CAM can then be inserted into the COMMON INTERFACE PORT (CI Card In).
System Lock - Allows you to lock or unlock the menu. You will be asked to enter a 4 digit password use the ◄ button to quit the password input. Use the ► button to clear. Default password is 0000
TV Menu Operation

SETUP MENU

To access this menu, press [MENU] button on the remote control. To enter a menu press [OK]

If you wish to make changes to any of the default settings, use the scroll ▲▼►◄ buttons. To confirm any settings press [OK] button.

To exit this menu at anytime, press [EXIT] button.

Menu language - Allows you to change the language of the menu

Aspect Ratio - Within the UK the picture format varies depending on the channel/broadcast. There are a number of different options to best meet your needs

Auto
Automatically displays the best picture format. So the picture is in the correct position. May have black lines at the top/bottom and/or sides.

Original
Will display the picture from the broadcaster without any change

Zoom
The picture is the correct proportion but zoomed in to fill the screen

4:3
Displays the 4:3 picture in its original size. Side bars are shown to fill the 16:9 screen

16:9
Fills the screen with a regular 16:9 signal.

14:9
Displays the 14:9 picture in the correct proportion. As a result side bars are shown on the screen

Blue Screen - Changes the background when there is no input between clear and a blue background (Only available on some sources)

Menu Duration - Lets you adjust the amount of time the On Screen Menu stays on the screen before disappearing

Reset to default
Reset Menu System - This resets the menus to factory settings.
Reset TV Channels - This clears all the TV channels from the television.

Software Update (USB) - From time to time we may release new firmware to improve the operation of the television (available to download). This menu lets you install the new software/firmware onto the television. Further details of how to do this will be issued with the firmware. Contact the helpline or refer to the ‘product support’ section of the website.
DVD Menu Operation

DVD MENU

To access this menu, press [D. MENU] button on the remote control.

If you wish to make changes to any of the default settings, use the scroll \( \uparrow \downarrow \rightarrow \leftarrow \) buttons. To confirm any settings press [OK] button.

To exit this menu at anytime, press [EXIT] button.

TV System - Choose from the following options

<table>
<thead>
<tr>
<th>Option</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>NTSC</td>
<td>Normally used for discs from North America, Japan etc</td>

</table>
USING THE TELEVISION AS A COMPUTER MONITOR

IMPORTANT – Before connecting the computer to the television you must ensure the computer settings are correct for the television. You MUST do this using your old monitor.

How to set up for Windows XP & Windows Vista (connecting via VGA cable to the TV)
1) Switch on your computer
2) When finished booting up right click your mouse anywhere on the screen
3) Left click your mouse on Properties/Personalise
4) Left click your mouse on Setting/Display Settings. Ensure the screen resolution is set to what is shown in the technical specifications section toward the rear of this user guide. To correct the resolution to that of the television move the slider.
5) Left click your mouse on Advance/Advanced Settings and left click on Monitor
6) Left click on the drop down for Screen refresh rate and select 60 Hertz, if you experience picture noise or ‘flickering’, select 50 hertz or 70 hertz.
7) Click on Apply, then click Yes and the settings will be saved.
8) Now switch off your computer and connect the television (as shown)
9) Switch on the TV, select the input/source to VGA/PC and re-start your PC.

Connecting a Laptop
In addition to the above if you are connecting a laptop to the television you will also need to activate the VGA connection on the laptop. This can vary based on the brand of laptop you have, on many brands/models, it is as per below.

1) Connect the laptop to the television
2) On the Laptop push buttons
The screen will now switch to the television.
PC Operation

PC SETTINGS

To access this menu, press [MENU] button on the remote control. To enter a menu press [OK]

If you wish to make changes to any of the default settings, use the scroll ▲▼ buttons. To confirm any settings press [OK] button.

To exit this menu at anytime, press [EXIT] button.

Auto Adjust - Lets you automatically configure the television to be used as a computer monitor

H Offset - Changes the horizontal position of the picture

V Offset - Changes the vertical position of the picture

Size - increase picture size

Phase - To adjust delay time of phase in order to reduce the noise of picture

Position Reset - Changes back to the original settings

Tip: If the computer is left in-active for a period of time, the television will switch into a ‘sleep’ state (the screen will power off to save power). To switch back on press the standby button.
7 DAY TV GUIDE

TV Guide is available in Digital TV mode. It provides information about forthcoming programmes (where supported by the freeview channel). You can view the start and end time of all programmes and on all channels for the next 7 days and set reminders.

1) Press [TV GUIDE]. The following 7 Day TV Guide will appear.

2) Navigate through the menu using ▲▼►▲

You can now:
Set a reminder by pressing GREEN
View a previous day by pressing YELLOW
View the next day by pressing BLUE

3) Press [EXIT] to exit the 7 day TV Guide.
USB MODE / MEDIA PLAYER

USB mode offers playback of various different types of content that you have saved on your USB Memory Stick.

On switching to USB source the above menu screen will appear. The content will be divided into Photo, Music, Movie and Text based on file type.

1) You can navigate through the menus using the scroll ▲▼►◄ buttons. To confirm the item you wish to play/view press [OK] button.

2) Select the drive you require. (If your drive only has 1 partition you will only see 1 item).

3) You can now access the item. Press OK to view.

4) While viewing you control the item using

or by pressing (i) and using ▲▼►◄ and (OK)
USING YOUR TV WITH A SKY DIGITAL SET TOP BOX

Option 1) Connecting your TV to your Sky box (when both the TV and Sky Box are located in the same room)

Depending on your Sky Box & TV model, connect either by SCART or HDMI cables (available separately)

If connecting by SCART, select the ‘Input source’ on the TV as SCART.

If connecting by HDMI, select the ‘Input source’ on the TV as HDMI (if the TV has more than 1 HDMI port, ensure you select the input source to match the HDMI numbered port on the rear of the TV)

If you wish to use your Sky remote to operate the TV’s functions, you will need a Sky remote control (Revision 9 or later) and you will need to programme a 4 digit code into it. See bottom of this page.

Option 2) Connecting your TV to your Sky box (when your Sky box is located in a different room to the TV)

Please note, if you are adding a ‘Magic Eye/TV Link’ to your system so that you can use your Sky remote control to change the Sky channel in the room where the 2nd TV is located, please refer to the instructions included with the TV link/magic eye in order to ensure the RF or RF2 output on your Sky box is powered on. (The red LED light on the TV link/magic eye will light up if the RF / RF2 output is correctly set up) If you do not have the instructions that came with the TV link/magic eye, instructions on how to do it can be found on our web site.

1) To tune the TV to the Sky box, on the 2nd TV, select the ‘Analogue’ input source.
2) Select the channel that you wish to store the Sky box/channel on. (If you do not use channels 1-5 because you no longer have analogue terrestrial channels after digital switchover, you may choose to select channel 1 to store the Sky box/channel, if you still have and use analogue channels 1-5, you may for example decide that channel 6 is the best option for you)
3) Press the corresponding number on the remote control to select the desired analogue channel chosen as per point 2 above.
4) On the TV remote control, press Menu. Now navigate through the menus to select Manual Tuning or Analogue Manual tuning (refer to the Tuning/Channel menu section of this user guide if necessary)
5) Manually tune in the channel (usually, the Sky box is at a frequency between 800Mhz and 850Mhz) once the Sky box/channel is found, press ‘OK’ to store it.

If you wish to use your Sky remote to operate the TV's functions, you will need a Sky remote control (Revision 9 or later) and you will need to programme a 4 digit code into it. See below.

Using a Sky Remote or a Universal Remote to operate your TV

Sky Remote Control, If you wish to use your Sky remote to operate the basic functions of your TV, you need to programme a 4 digit code into it. Please note, you will need the latest Sky Revision 9 remote control as this is the only version that includes the latest software/firmware necessary to operate this model of TV. All codes can be found on our website. If you wish to upgrade/replace your existing Sky remote control to the latest version, you can do so on our web site.

Universal Remote Control, If you wish to use a Universal remote control to operate your TV, please refer to the web site for a full list of codes. (Please note we only have codes for One for All branded remote controls, if you have an alternative brand of Universal remote, please refer to the manufacturer for the code.)
# FREQUENTLY ASKED QUESTIONS

| General | I would like to have louder sound by connecting additional speakers | Subject to the TV model and connections, it is possible to connect the TV to an external amplifier or surround sound (subject to connections/inputs on the device) as follows:-
1) Connect a COAX cable* from the TV's COAX output to your amplifier/surround systems COAX input
2) Connect a 3.5mm jack to L/R phono cable* from the TV's headphone socket (where fitted) to your amplifier/surround sound L/R input. Please note sound to the TV's speakers will be disabled.
3) On selected models, it may be possible to connect a SCART input/output* switch with an additional L/R Phono cable* to the TV's SCART socket and to the L/R Phono Input of your amplifier/surround sound. Please note due to copyright laws it is not possible to output video/sound from the TV on certain sources, i.e. HDMI, DVD etc.*cables and switches mentioned are available to purchase separately from your retailer. |

<tr>
<td>General</td>
<td>Why are some options in the menu unavailable and greyed out</td>
<td>Some options are only available in certain sources, i.e. HDMI, PC/VGA. They are unavailable in the other sources where they have no affect.</td>
</tr>
</tbody>
</table>
| TV | I have tuned in Digital TV but I am not receiving any or all of the channels and/or the channels I receive are breaking up | 1) Check you are in an area that can receive Freeview. Visit www.freeview.co.uk
2) Check you are using an aerial that is able to receive a good digital signal. In most cases, you will need an outdoor digital high-gain wideband aerial. In areas that have excellent Freeview coverage, you may be able to use a loft type aerial but it is highly likely that you will also need to connect a booster between the back of the TV and the TV aerial wall socket. Unfortunately, to receive a good enough digital signal, it is not possible to use a portable/indoor type aerial. This may change once the analogue signal is switched off in 2012 and the Digital signal strength is increased. |
| TV | I have re-tuned my television but when I switch it off it is not storing the channels | Complete a first time installation, please refer to the set-up menu section of the manual of how to do this |
| VCR/DVD Recorder | I have connected the TV to my VCR or DVD Recorder via SCART but it is not recording | In addition to connecting via SCART, you should connect the aerial cable from the wall socket to your VCR/DVD Recorder and another aerial cable from the VCR/DVD Recorder to the TV |
| DVD | I have inserted a disc but it is not playing | 1) Ensure you have inserted the disc facing the correct way forward
2) Ensure the disc is clean and is not scratched
3) Some copied discs will not play.
4) Check the DVD is a region 2 disc – to change the region of the DVD player, refer to section ‘Changing Regions’. |
| Game Consoles | I have connected my PS3 to the TV via HDMI, but I am not receiving any pictures or sound on my Television | 1) Ensure the TV's source is on HDMI
2) Check your settings on your PS3 are as per the PS3 instruction manual |
| Game Consoles | I have connected my Xbox 360 to the TV via Component Cables (Red, Green & Blue) but I am not receiving any sound | Component cables only provide HD Pictures. For the sound you will need to connect the Red & White audio cables on the Xbox to the Red & White phono inputs on the rear of the TV. Please refer to the ‘Connections’ pages. |
| USB Mode | I have inserted a USB Memory Key, but the TV does not recognise it | Ensure the USB Memory Key is formatted to type FAT32. |
| USB Mode | Using a USB portable hard drive | If you wish to use a portable hard drive larger than 32GB, please note that it must be formatted to the FAT32 file system in order to operate on this TV. Windows XP/Vista computers are only capable of formatting up to 32GB, therefore, you will need a software programme/utility to format larger hard drives. Please refer to the website for more information. |
| System Lock | I have changed the password on the television and now forgotten it | There is a master password of 4711, to gain access to the TV menu and reset the normal password |

Web Support: www.skymediauk.co.uk
Congratulations! You have made an excellent choice with the purchase of this quality product. Our commitment to quality also includes our service. Should you, contrary to expectations, experience defects due to manufacturing faults during private use within 36 months of the date of purchase we shall be liable for warranty in accordance with statutory warranty regulations provided that:
- the device was not put to any use other than the intended
- was not overloaded
- was not used with the wrong accessories
- repairs were not carried out by any other than the authorized workshop

The warranty certificate is only valid in connection with the receipt. Please keep both in a safe place. This warranty does not affect your statutory rights.

This purchase is guaranteed for a period of three years beginning on the day of purchase. Keep your purchase receipt safe as proof of date of purchase.

In the event that a fault is diagnosed, the helpline will arrange to collect the TV from your home or work address, return it to our service centre, repair the item and then return it to you.

If we believe we cannot offer a permanent repair, we will replace the item.

Please enclose the following when collection of your product has been arranged:
1. Receipt (proof or purchase)
2. A letter complete with your name, contact details and fault description.

If the original receipt is not enclosed the repair will be charged in all cases. Ensure that the product is well packed (please use original packaging where possible) as no responsibility can be accepted for items lost or damaged in transit.

This warranty does not affect your statutory rights.
