# Setting up the TV set for the first time

## 1 Fitting the stand

The TV panel must be facing downwards.

For the stand installation, there is one type of screw provided as shown below.

**Note:** To complete the stand installation you will require a cross head screw driver.

1 Place the TV set on a flat and clean surface with the panel facing downwards to avoid damage.

2 When the stand feet are installed correctly the stand feet will be longest at the front of the TV and shortest at the back with the feet pointing away from each other.

3 When the stand/feet are in the correct position, secure the feet to the underside of the TV set using 4 screws provided.

Terms and conditions apply. Online registration only.

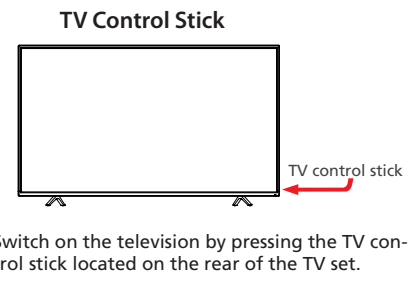

## 2 Connecting your set

- 1) Connect the TV to your power socket.
  - 2) If you wish to use the TV to receive Saorview channels, connect the RF input from the TV to your outdoor Digital TV aerial. If you do not wish to receive Freeview/Saorview, skip this step.
  - 3) Connect to the internet. Ethernet provides the most stable connection.
- \*Please refer to the "Connectivity" section of this Quick Start Guide for detailed connection information.

## 3 Powering On the TV

Switch on the television by pressing the TV control stick located on the rear of the TV set.

### Remote Control: Installing Batteries

Insert the batteries supplied into the remote control and press the standby button to power on the TV.

## Wall Mounting the TV

Image for illustration only.  
For the dimensions of the VESA mounting, please refer to the Technical Specifications section of this document.

- 1) Remove the four screws that are supplied in the wall mounting holes.
- 2) The wall mount can now be easily attached to the mounting holes on the rear of the TV.
- 3) Install the wall mounting bracket to the television as advised by the bracket manufacturer.

The picture shows the use of spacers, which are not applicable to all sets/installations.

## 4 First time installation

Basic installation steps are shown below. These may vary slightly depending on your model. Due to Android software updates, the look and feel of the TV start up procedure and subsequent menus can be subject to change.

When the set first turns on, it will ask you to select your preferred on-screen display language. This will change the language in which the menus and associated information is displayed in.

- Press to navigate up
- Press to confirm a selection
- Press to navigate right
- Press to navigate left
- Press to navigate down

### Android Phone users

During the set-up process, you will be prompted to sign-in to your Google account using your pre-installed "Google" app. This set up process will depend upon which model TV you are setting up. Please ensure you have your account details to hand.

## 5 Pairing the remote

If during the first time installation process the remote was not paired or skipped, then follow the process below to pair your remote with the television.

- 1) Turn the set on.
- 2) Press the button on the remote control.
- 3) The LED indicator on the remote will illuminate and the pairing screen will appear on the TV.
- 4) Now press and hold the "Left" and "Home" buttons on the remote simultaneously.

- 5) The LED indicator on the remote control will start to flash.
- 6) Select the detected remote control shown on the screen and press OK.
- 7) Once paired the pairing screen will disappear.

This process will only need to be carried out if the remote is not paired. Once paired, when the button is pressed it will open the Google Assistant screen on the set and activate voice functionality.

## 6 The Google Assistant

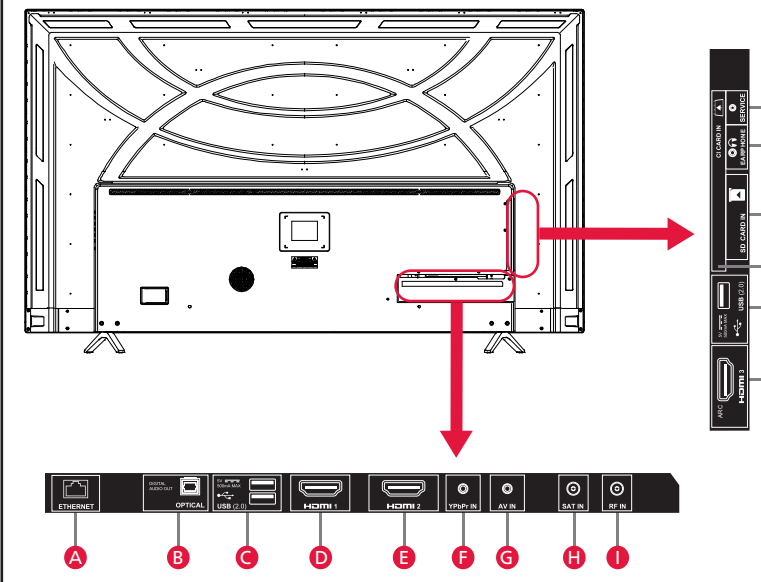

### Using the Google Assistant with your voice

Remote controls with the Google Assistant have a Google Assistant dedicated button and a built-in microphone. To use this feature with the Google Assistant remote control, follow the instructions as below.

- 1) Before using the Google Assistant, you will need to pair the remote. Please follow step 5 of this guide to pair your remote to enable the Google Assistant.
- 2) Press the button. The LED indicator on the remote control will illuminate.
- 3) Wait for the on-screen message from the Google Assistant, then speak into the microphone. A good rule of thumb is to have the microphone positioned about 15-30 centimetres away from your mouth.

By speaking into the microphone, you can search for various content or control your connected smart home devices. Speech examples may be displayed on the television screen depending on your model.
